

Wallet

Requirements:

- As a wallet owner, I would like to be able to put money into my wallet, so that I can take it out later.
- As a wallet owner, I would like to be able to take a specified amount of money out of the wallet.

Given I have put in the wallet `Rs. 1` and `\$1`,

When I want to take out `Rs. 10`,

Then I should be able to retrieve it even if `Rs. 10` wasn't put in, explicitly.

- As a wallet owner, I want to know the total money my wallet has for the preferred currency.

Given preferred currency is Rs.,

When my wallet has `Rs. 50` and `\$1`,

Then the sum of money in the wallet is `Rs. 124.85`

Given preferred currency is \$,

When my wallet has Rs. 74.85, \$1 and `Rs. 149.7`,

Then the sum of money in the wallet is `\$4`
